

Increasing Influenza and/or COVID Immunization Application For Support

The American Academy of Pediatrics Vermont Chapter, in collaboration with the Department of Health's Immunization Program, is providing funding to support expanded influenza and or COVID vaccination by healthcare practitioners or organizations. To decrease the incidence of disease throughout the state of Vermont, healthcare practitioners are encouraged to offer expanded services to increase coverage or influenza and/or COVID vaccine, including, but not limited to, longer hours or designated flu hours, off-site clinics, or additional staffing.

Health Care Practices/Organizations may receive \$1000 per clinic held (up to \$5000 total). Applications will be reviewed on receipt and funds will be distributed upon project completion and receipt of final project report. **Submit this application form to Stephanie Winters at swinters@vtmd.org by November 19th, 2021, to indicate intent to participate.**

By submitting this application, you are attesting that:

- Practices or organizations are enrolled in the Vermont Child and/or Adult Vaccine Program (VCVP/VAVP) and/or the Vermont COVID Program (VCP)
- You will work to expand access to flu and/or COVID vaccination through patient outreach, vaccine promotion, and expansion of current vaccination services.
- This activity is not being funded by any other sources
- Vaccines administered will be entered into the Vermont Immunization Registry
- You will submit a final reporting form documenting increased vaccinations and clinics held, submitted by March 31, 2022

Please fill out all sections below to be considered for an immunization grant from the Vermont Department of Health's Immunization Program.

Organization/Agency Name: [Click or tap here to enter text.](#)

Name of individual completing this form: [Click or tap here to enter text.](#)

Provider Pin (for VFC/VFA and/or VCP) : [Click or tap here to enter text.](#)

Briefly state how your organization/agency will expand their immunization practices to increase influenza and/or COVID vaccine coverage, including how many immunization clinics you plan to hold.
